

BELFAST BOYS' MODEL SCHOOL

PARENT BULLETIN

15th December 2025

At Belfast Boys' Model School, Christmas is always a time for celebration and thankfulness. We think of those less fortunate than ourselves and remember the true meaning of Christmas. Pupils will attend Christmas assemblies this week to encourage them to reflect on this season of love, family and kindness.

for pupils in
Years 8-12
with
permission
slips on
Tuesday 16th
December!

FLU VACCINE AND CHILDREN

The flu vaccine is **free** for eligible children

- 1) THE FLU IS NOT JUST A BAD COLD**
Most people will feel unwell/miserable from flu with coughs, sore throat and runny nose. But 862 children and young people were admitted to hospital in NI with flu last year so it can be really serious. Even if it doesn't prevent you from getting the flu, it can decrease the chance of severe symptoms.
- 2) HEALTHY CHILDREN DO NEED A VACCINE**
Flu vaccine is vital for most children, not just those with long-term health conditions. Flu spreads more easily among children in winter due to spending more time indoors. So vaccinating children helps to protect them and those around them.
- 3) VACCINES ARE TESTED AND SAFE**
Children in the UK have been given the nasal flu vaccine for many years and this vaccine has an excellent safety record. Some children have mild side effects, and serious side-effects are very rare. Over 34 million doses have been given to children in the UK since 2013.
- 4) THE VACCINE CAN'T GIVE YOU THE FLU**
Fluenz® contains viruses that have been weakened to prevent it causing flu but help your child build up immunity in the same way as a natural infection (but without the nasty symptoms).
- 5) WILL THE VACCINE PROTECT AGAINST NEW STRAINS**
Flu strains can change throughout the season. Whatever strains do circulate here this winter, the vaccine will offer important protection to those eligible, helping to protect them from serious illness and being hospitalised.
- 6) CHILDREN'S FLU VACCINE INGREDIENTS**
The nasal spray vaccine contains a small amount of gelatine from pigs (porcine gelatine). A flu vaccine injection is available that does not contain gelatine. If you do not want your child to have the nasal spray vaccine, speak to the person vaccinating your child or ask for the flu vaccine injection on the school consent form.
- 7) IT'S NOT TOO LATE**
In Northern Ireland all school aged children from primaries one to year 12 and pre-school children are eligible for the free flu vaccine. It usually takes about two weeks for a vaccine to become fully effective, so the earlier you get vaccinated the better, however it's never too late to take up the offer if you are in an eligible group. Find out more at www.nidirect.gov.uk/wintervaccines.

If your child is eligible for the flu vaccine, make sure they take up the offer when invited.
